REFLECTION - Leave NO ONE behind – SOMETHING TO THINK & PRAY ABOUT

Although we have made progress towards building a better world, too many people have been left behind.

Enough food is produced to feed everyone on the planet. The problem is access and availability of nutritious food, which is increasingly impeded by multiple challenges including the COVID-19 pandemic, conflicts, climate change, inequality, rising prices and international tensions. Worldwide, more than 80% of the extreme poor live in rural areas and many rely on agriculture and natural resources for their living. They are usually the hardest hit by natural and man-made disasters and often marginalized due to their gender, ethnic origin, or status. It is a struggle for them to gain access to training, finance, innovation and technologies. On this World Food Day we can pray for whole world food security or can take action by following this link, and digesting some of the information available here. <https://www.fao.org/world-food-day/about/en>
