MESSAGE FROM POPE FRANCIS FOR WORLD DAY OF PRAYER FOR PEACE, 1st JANUARY 2024: While acknowledging how we have benefitted from science and technology Pope Francis calls for responsible development, regulation, and oversight of AI (Artificial Intelligence) technologies. He reminds us that the measure of true humanity lies in how we treat the least among us and he expresses the hope that AI development may contribute to human fraternity and world peace. As we celebrate the example of the Holy Family this weekend may I also encourage you to pray for world peace on Monday, 1st January. We trust that our prayer at home and in our parishes will bring peace to our troubled world and especially to the Holy Land where God sent his Son, Jesus to be among us.
